

Lisovik Artem

Front end developer

I'm front-end developer with over 2 year of experience in creating and optimizing web applications using React. I have experience in creating MVP projects, support, bug fixes and transfer projects to the new technologies.

I plan to seriously engage in development and build a career in this area.

Work Experience

Web developer/Front end developer
Freelance | 2021-now

- I have been building responsive websites using React/Redux, Typescript.
- Conducted UX analysis and optimization.
